PREPARATION FOR DIAGNOSTIC PROCEDURES

ULTRASONOGRAPHY:

Saline Infusion Sonohysterography

No preparation is necessary for the exam, however it is best scheduled in the first half of your menstrual cycle. Some patients experience cramping. 2-3 Advil one hour prior to test should be considered if your medical history permits usage.

Pelvic Sonogram Transabdominal

A full bladder is necessary for the exam. In order to have a full bladder, please drink 32 ounces of liquid one hour before exam. Do not empty bladder.

Pelvic Transvaginal, Color Doppler Imaging

No preparation is necessary.

Pregnancy Sonogram

OB from 4-28 weeks, no preparation is necessary. For 28 weeks to term, eat one hour before visit, unless your doctor indicates otherwise.

DEXA BONE DENSITY:

Wear comfortable clothes (loose fitting clothes with no zippers is best for the test).

Please call the office if you have any questions regarding preparations for studies.
